C R O P

HERBST BROTHERS, INC.

92 Warren Street, New York, N.Y.

Agent for

T. SAKATA & Co. Yokohama, Japan.

Dear Sir,

We have pleasure in presenting you our 1933 Tree Seed list and hope to be favored with your valued order.

The coming crop of Tree Seed gives every indication of being abundant and of splendid quality. This applies particularly to the Conifers such as Larix, Abies, Chamaecyparis, Picea, Taxus, Tsuga, etc. Nurserymen should use this opportunity of making liberal plantings of the rare species.

As you probably know, we are not price seller; but from us you can expect carefully tested seeds. Our laboratory equipments are so made that no seed is allowed to be shipped out without careful examination as to the vitality and trueness.

We, therefore, believe it is to your advantage to secure such tested seeds than ordinary quality.

Our Agents, Messrs. HERBST BROTHERS, Inc., 92 Warren St., New York, N.Y., will be pleased to transmit to us your order; they are always intent upon furthering your and our interests and shall be glad to communicate to us your wishes.

We thank you for your past patronage and look forward to the pleasure of your further commands.

Yours faithfully,

T. Sakata & Company

A handwritten signature in dark ink, appearing to read 'T. Sakata', written in a cursive style.

Yokohama, Japan.
July, 1933.

Terms of Sale

DISCLAIMER: We give for ourselves or our principals no warranty expressed or implied, as to the description, quality or productiveness, or in any other respect for the seed we deliver, nor will we be responsible for the crop in any way. In no case shall we or our principals be held liable for more than the invoice value of the seed sold.

QUOTATIONS are based on an average crop and normal cost of collecting and preparing the seed. If through unforeseen contingencies the cost of any item is extraordinarily increased, we reserve for ourselves and our principals the privilege of proportionately advancing the price of such items of accepted orders, subject to the buyers' option to acquiesce or cancel the items affected.

PRICES are F.O.B. Seattle. They include import duty, fumigation costs and all Custom House charges.

WEIGHTS are net. Containers are charged at cost.

DELIVERY is always subject to crop-out-turn and arrival in good condition from source.

PURCHASES of less than $\frac{1}{2}$ lb. of any one item will be billed at 25% over the pound price. Minimum orders for any one item 4 ozs., except where otherwise indicated; minimum charge 25¢.

PAYMENT: Our prices are calculated on a strictly cash basis; customers remitting with their orders will be allowed 5% discount.

Buyers will kindly indicate the routing desired, which will be followed as far as possible; otherwise we will use our best judgment in shipping, always subject to the Buyer's responsibility after delivery to carrier.

This offer expires October 31st, 1933.

Cultural Notes

Tree seed planters often attribute lack of success to the seed, which, although viable often fail to germinate by reason of improper sowing. To prevent such failure we give a few important cultural notes which we invite those of our customers who have no experience in tree seed culture to read carefully.

Seeds having a hard skin or shell often remain for a year, and even longer, dormant in the ground. They may come up during the following season or even two or three years later.

To succeed with tree seed it is important to keep the seed bed sufficiently moist but not too wet, as this may lead to "Damping off," especially in the case of coniferous seedlings. The seed bed must be of well drained loamy soil sufficiently sandy to prevent fungus attacking the seedlings. Shading is necessary, especially for the delicate sorts. We recommend the use of disinfectants of which numerous brands have recently come on the market.

Generally speaking, tree seed does not carry well in warm places; it should be at once placed in cold storage if it cannot be immediately used. Even then it often will not carry safely from season to season.

Many sorts lose their germination quickly, especially Ulmus, Cherries, small-fruited Prunus, Mulberries, Elaeagnus, etc. These should be kept only in cold storage.

It is physically impossible to treat conclusively in a few lines the subject of tree seed germination. To all, even experienced growers of seedlings, flowering Cherries and stone fruited plants, we can recommend Bulletin No. 569 of the New York State Agricultural Experimental Station at Geneva, N. Y., by Dr. H. B. Tuckey. In this Bulletin you will find this subject treated fully and practically.

Growers of Conifers and Shrubs will do well to keep posted on the Bulletins of the Boyce Thompson Institute.

We may recommend specially Dr. William Crocker's Bulletin No. 15, dated March, 1930, copies of which may be secured, we believe, from the Boyce Thompson Institute for Plant Research, 1086 North Broadway, Yonkers, New York.

The following pointers may be of service to the nurseryman. They are based on our own experience but should be changed as conditions seem to require :

Abelia	Enkianthus	Phyllodoce	} Sow in peat moss or fine leaf mould in well protected seed bed.
Alpine Plants	Diervilla	Rhododendron	
Andromeda	Lagerstroemia	Ribes	
Azalea	Ledum	Tamarix	
Buddleia	Leucothoe	Tripetaleia	
Corylopsis	Menziesia	Weigela	
Carpinus	Malus	Ulmus	} Sow as soon as possible after seeds are received.
Clerodendron	Meliosma	Zanthoxylum	
Disanthus	Prunus		
Hovenia	Pterocarya		
Aesculus	Cinnamomum	Lagerstroemia	} Sow in autumn or when seed arrives.
Alnus	(in warmer climate)	Ligustrum	
Amygdalus		Prunus triflora	
Chamaerops	Cornus	Sapindus	
(in warmer climate)	Corylus	Syringa	
	Forsythia	Tilia	
	Fraxinus		
Acanthopanax	Euptelea	Rhus	} Sow in early spring.
Actinidia	Euscaphis	Sambucus	
Ailanthus	Fagus	Schizophragma	
Akebia	Gleditschia	Skimmia	
Amelanchier	Illicium	Sophora	
Berberis	Indigofera	Staphylea	
Catalpa	Juglans	Stauntonia	
Celtis	Juniperus	Stewartia	
Cercidiphyllum	Kerria	Symplocos	
Chloranthus	Lespedeza		
Clematis	Paeonia		
Daphniphyllum	Podocarpus		
Diospyros	Pyrus		
Abies	Gardenia	Rhodotypos	} Sow in spring after danger of frost is past and soil is warm.
Acer	Ginkgo	Robinia	
Ampelopsis	Hibiscus	Sciadopitys	
Aralia	Hydrangea	Spiraea	
Benzoin	Idesia	Stachyurus	
Betula	Ilex	Styrax	
Buxus	Larix	Taxus	
Callicarpa	Lonicera	Taonabo	
Camellia	Magnolia	Thuja	
Celastrus	Melia	Thujopsis	
Cephalotaxus	Nandina	Torreya	
Cercis	Paulownia	Trochodendron	
Chamaecyparis	Phellodendron	Tsuga	
Citrus	Philadelphus	Vaccinium	
Cladrastis	Photinia	Viburnum	
Clethra	Picea	Vitis	
Crataegus	Pinus	Wisteria	
Cryptomeria	Pittosporum	Zelkova	
Cydonia	Pueraria	Zizyphus	
Elaeagnus	Punica		
Euonymus	Rhaphiolepis		

Acer	Elaeagnus	Prunus	} Stratify before sowing; seeds germinate slowly.
Akebia	Hamamelis	Rhus	
Amelanchier	Ilex	Ribes	
Ampelopsis	Juniperus	Rosa rugosa	
Berberis	Lonicera	Rosa wichuriana	
Buxus	Magnolia	Staphyllea	
Cephalotaxus	Melia	Styrax	
Celtis	Nandina	Taxus	
Cydonia	Ostrya	Viburnum	
Clematis	Paeonia Moutan	Vitis	
Crataegus	Photinia	Zanthoxylum	
Diospyros	Pyrus		
Albizzia	Gleditschia	Robinia	} Soak in hot water just before planting.
Buxus	Ilex	Rosa	
Camellia	Photinia	Sophora	
Cercis	Pueraria		
Ardisia	Kadsura		} Sow under glass.

SPECIALTIES

WE INVITE YOUR APPLICATION FOR LARGE QUANTITY.

CASTANEA MOLLISSIMA, resistant type (Korean Chestnut)

Blight resistant hardy chestnut widely recognized by foresters. The nuts are sweeter and larger than native varieties. **The seed should be ordered early.**

55 ¢ lb; \$4.00 10 lbs.

PYRUS SEROTINA

Wild Japanese Pear. A blight resistant type, rapid in growth and an excellent understock. Very popular in our Southern States. **The seed should be ordered early.**

\$2.00 lb; \$18.00 10 lbs.

PYRUS USSURIENSIS (Wild)

Also a blight resistant type. Its strong root system adds to its value as grafting understock. **The seed should be ordered early.**

\$2.50 lb; \$22.50 10 lbs.

PYRUS USSURIENSIS (Cultivated)

Embodies all of the advantages of the above and in addition, produces an astonishingly even top growth. **The seed should be ordered early.**

\$2.50 lb; \$22.50 10 lbs.

GINKGO BILOBA (Maidenhair Tree)

The sole survivor of a preglacial group. Makes a magnificent, picturesque, upright shade tree and is always in good demand. Ginkgos are noticeably free from insect damage. The nuts are edible. **Orders should be placed immediately.**

40 ¢ lb; \$3.60 10 lbs.

LARIX LEPTOLEPIS (Japanese Larch)

Its quick growth and blight resistance is attracting American and European foresters. We expect to have a good crop this year and can supply best quality seed. **For large quantity, please write for current price.**

\$3.00 lb; \$27.00 10 lbs.

*Unless specified, our seeds are always clean either out of hulls or berries.
Such seeds are far economical for the nurserymen than uncleaned seeds.*

TAXUS CUSPIDATA (Japanese Yew)

Not only is production from seed cheaper than from cuttings, but it results in more shapely upright plants. Culture is very simple.

90 ¢ lb; \$8.00 10 lbs.

ACER PALMATUM, small seeded type (Japanese Maple)

The small seeded has invariably produced stronger grafting stock and more seedlings per pound of seed. Best understock for grafting.

\$1.25 lb; \$11.00 10 lbs.

AMPELOPSIS TRICUSPIDATA (Veitchi) (Boston Ivy or Japanese Creeper)

A most popular vine plant. It clings firmly to wall, etc., and its foliage, which turns scarlet-orange in fall, is particularly attractive.

90 ¢ lb; \$8.00 10 lbs.

ANDROMEDA POLIFOLIA (Bog-Rosemary)

One of the most lovely alpine Andromedas of delicate pink bell-like flower. It grows up one foot in shapy bush form. Highly recommended.

\$1.00 pkt; \$3.00 per oz.

AZALEA KURUME, mixed colors

Few Azaleas can beat Kurume in beauty. It contains a vast range of most fascinating brilliant shades as well as intermediate colors. Single, as well as semi-double flowers. We collect our seed from beautiful garden collections.

\$1.00 pkt; oz. \$5.35.

CLEMATIS PANICULATA (Sweet Autumn Clematis)

Our seed is really cleaned. Absolutely free of beard, it presents an even golden color and runs freely when sown.

90 ¢ lb; \$8.00 10 lbs.

CORNUS KOUSA (Kousa Dogwood)

Comes to flower mid-June. Its upstanding heads on rigid slender stalks are covered with rich green leaves. Copious floral heads, each from 5 to 6 inches across, last for full a month before turning scarlet. **Order early.**

80 ¢ lb; \$7.20 10 lbs.

CYDONIA JAPONICA PYGMAEA (Dwarf Flowering Quince)

Similar to C. japonica (Flowering Quince) in brilliancy of flower and fruit, but of dwarf and creeping habit. Highly recommended for rock gardens. Easy to grow from seed.

70 ¢ lb; \$5.30 10 lbs.

ENKIANTHUS CAMPANULATUS (Redvein Enkianthus)

Its clustered blossoms hang beneath tufts of deep green leaves. Flowers vary from reddish-crimson and salmon shades to clear cream.

50 ¢ oz; \$1.50 ¼ lb; \$4.50 lb.

MAGNOLIA CONSPICUA (Yulan)

Our's is true strain. **Order early.**

\$2.60 lb. \$24.00 10 lbs.

MAGNOLIA KOBUS (Japanese Magnolia)

Many nurserymen have trouble in starting the seed but we can supply such Kobus seed which is sure to germinate. They are harvested with utmost care and dried in such manner that they do not fail to germinate. Customers must plant our seed immediately on their arrival.

\$1.50 lb; \$13.50 10 lbs.

MAGNOLIA OBOVATA (Liliflora)

A large flowering Magnolia. The flower is even larger than Yulan but with dark purple-red color.

\$2.60 lb; \$24.00 10 lbs.

NANDINA DOMESTICA RED

One of the most beautiful of red berries in Japan. Usually they grow up from 3 to 6 feet making standard appearance as they lose their foliage from the bottom. The brilliant red berries born on the top part of the plant in very heavy clusters which easily measure more than foot long covered by hundreds of good sized round berries of most brilliant red imagined. Easily can be grown from seed and comes to berry within comparatively short time.

90 ¢ lb; \$8.00 10 lbs.

PRUNUS INCISA (Mame Cherry)

Absolutely hardy in the Arnold Arboretum and rivals *P. subhirtella* in abundance of blossom. As the petals fall, the calyx becomes bright colored and adds fully a week to the Spring beauty of this tree. **Order early.**

\$1.75 lb; \$16.00 10 lbs.

PRUNUS LANNESIANA (Hitoye Cherry)

One of the principal parents of the double-flowered Japanese Cherries. Pure white blossoms, each about 1½ inches in diameter, borne several together in fascicles are crowded toward the ends of the branches. The flowers are fragrant. **Order early.**

\$1.00 lb; \$9.00 10 lbs.

PRUNUS YEDOENSIS (Yeddo Cherry)

"This is the Cherry," wrote Mr. Wilson, "so generally planted in the parks, temple grounds, cemeteries and streets of Tokyo. Its flowering is the occasion of a popular festival in the city of Tokyo." The blossoms are white flushed with pink. **Order early.**

\$1.75 lb; \$16.00 10 lbs.

PUERARIA THUNBERGIANA (Kudzu Vine)

The use of this plant as a **forage crop** is highly recommended. The U. S. Department of Agriculture went to the expense of sending representatives to the Orient to further study it. To quickly establish a field, the use of seedlings has been found advisable due to its slow initial development. Particularly in the Southern States, where the plant is best known, the growing of seedlings should prove profitable. Being of rapid growth, it makes a good cover.

80 ¢ lb; \$7.20 10 lbs.

*Unless specified, our seeds are always clean either out of hulls or berries
Such seeds are far economical for the nurserymen than uncleaned seeds.*

ROSA MULTIFLORA

Useful understock and ornamental. Perfectly hardy in the Northern States. Pure white flowers are borne in great profusion. Excellent for mass plantings and embankments. **For large quantity, please write for current price.**

40 ¢ lb ; \$3.60 10 lbs.

ROSA MULTIFLORA THORNLESS

We collect seeds from only thornless trees but all seedlings are not like their parents. However, good many percentage are thornless. The best way is to make cuttings from these thornless seedlings.

\$1.00 lb ; \$9.00 10 lbs.

STYRAX JAPONICA (Japanese Snowbell)

The bell-shaped flowers are borne in cymose clusters at the end of every branchlet and the corolla is of pure, waxy white. No other tree has such an abundance of bloom. Grows freely from seed.

75 ¢ lb ; \$7.00 10 lbs.

VIBURNUM CARLESI

It germinates well after stratification. Seedlings are cheaper than grafts and produce natural well shaped plants. They are finest and most fragrant clove scented Viburnum from Korea. Flowers waxy in texture, pink tinted in bud and pure white when fully opened. Flowers make a rounded and conspicuous clusters.

\$2.80 lb ; \$26.00 10 lbs.

CYPRIPEDIUM DEBILE

A miniature terrestriol Cypridium which is suitable for small pots or for Rock Gardens. Flowers in July, yellowish green color.

\$1.00 pkt ; \$15.00 oz.

CYPRIPEDIUM JAPONICUM

A hardy terrestriol Cypridium with large light-pink flower. One of the most showy hardy Orchids.

50 ¢ pkt ; \$3.00 oz.

CYPRIPEDIUM SPECIOSUM

A little smaller than preceding variety but darker in color.

50 ¢ pkt ; \$3.00 oz.

IRIS KAEMPFERI (Japanese Flag Iris)

Undoubtedly the finest of all Iris family. Especially so as this seed is collected from famous collection, cultivated for exhibition purpose.

80 ¢ $\frac{1}{4}$ lb ; \$2.20 lb ; \$20.00 10 lbs.

PLATYCODON GRANDIFLORA PRAECOX GIGANTEA

An extra early flowering Platycodon with most gigantic size. Individual flower measures as large as 4 inches across and starts flowering already in June. Seed when planted in April-May starts flowering from August on until frost kills them. They grow up over 2½ ft. from roots but from Seeds, they start flowering at the height of 5 inches. We can supply both in blue and in white color. From seed they show some percentage of variation in color and in size. We consider this to be a startling novelty.

50 ¢ pkt ; \$1.40 oz.

Specialty page 6. 1.75 16.00

d* japonica 1.80 16.00

A dwarf spreading shrub with beautiful, soft rose-pink, flowers.

d* lannesiana, Hitoye Cherry (Oshima C.) 1.00 9.00
See also Specialty page 6.

d* Maacki, Amur Cherry 1.75 16.00

d* Maximowiczii (Miyama-Cherry) 1.75 16.00

d* padus (Cerasus padus), European Bird Cherry 1.75 16.00

d* serrulata, Oriental Cherry 1.00 9.00

Another parent to a large group of hardy do ble flowering varieties. The low price of the seed permits its extensive use as understock.

d* serrulata sachalinensis, Ezo-Yama Cherry 1.75 16.00

Also known as Sargent Cherry. Native in Northern Japan and, therefore, perfectly hardy. Flowers are rich rosy pink, fading to pink and the largest of all Japanese Cherries. Very hardy.

Unless specified, our seeds are always clean either out of hulls or berries. Such seeds are far economical for the nurserymen than uncleaned seeds.

F. O. B. Seattle
Duty and Fumigation Included
Per lb. 10 lbs.

PRUNUS--(cont'd.)

d* subhirtella, Higan Cherry \$1.75 \$16.00
An extra early flowering variety.

d* subhirtella pendula, Shidare-Higan Weeping Cherry 1.50 13.50
The popular Japanese Weeping Cherry. As our seed is collected from only the best specimens, it will produce a good percentage of true types.

d* tomentosa, Nanking Cherry 1.40 13.00
Hardy Oriental shrub with multitudes of thin, whip-like stems. Flowers white tinged with pink appear late in April. Fruit rich scarlet and edible.

d* triloba, flowering Plum 1.20 11.00
Makes a broad bush. 12 feet high and 20 feet in diameter. Its slender rigid stems are densely packed with Double Rose-like pink blossoms.

d* yedoensis (Yedo Cherry) -- see also Specialty page 6. .. 1.75 16.00

VIBURNUM

d **Carlesi** – see also Specialty page 7. 2.80 26.00

d **dilatatum, Linden Viburnum** 1.20 11.00

A sturdy shrub with ascending-spreading branches forming a compact, flat-spotted bush from 6 to 9 feet tall and more in width. The branchlets are stout and terminate in 4 to 5 inches broad, flattened clusters of avoid brilliant red fruits. The fruit are small abundantly produced and crown the whole bush in vivid color.

d **furcatum, Forked Viburnum** 1.70 15.00

e **odoratissimum, Sweet Viburnum** 1.20 11.00

A semi-hardy evergreen Viburnum with very heavy glossy foliage. It bears coral-red berries in clusters. In Japan it is called Coral Tree.

F. O. B. Seattle
Duty and Fumigation Included
Per lb. 10 lbs.

VIBURNUM—(cont'd.)

d	Sargenti, Sargent Cranberrybush	\$ 1.70	\$ 16.00
d	Sieboldi, Siebold Viburnum95	8.00
d	tomentosum, Doublefile Viburnum	2.00	18.00

A large shrub, sometimes 15 feet tall, with stiff, wide spreading tiered branches. Flowers-clusters, 3 to 5 inches across, terminate in short lateral branchlets and are produced along the entire length of the shoots. They are borne erect on stout peduncles and have a conspicuous outer whorl of large, white, neuter flowers.

d	Wrighti	1.75	16.50
---	------------------------	-------------	--------------

Its moderately stout stems are ascending and spreading, forming a loose, roundish bush, some 5 feet tall and from 6 to 8 feet wide. The leaves are short stalked, broadly ovate, often roundish, and assume dark wine-purple tints before they fall. The fruit is globose, lustrous scarlet, densely crowded in short-stalked flattened corymbs each 3 to 6 inches in diameter.

SAKATA'S NOVELTY PETUNIAS

TRY OUR SEED AND LET US
KNOW YOUR EXPERIENCE.

*All-Double
Tall Giant Fringed*

PETUNIA ALL-DOUBLE TALL GIANT FRINGED MIXED COLORS

“Triumphant” (Sakata's Novelty No. 1)

The ONLY PETUNIA of all times, to produce 100% double-flowered plants. Since we introduced the “ALL-DOUBLE GIANT FRINGED PETUNIA” seed into the market one year ago, we have done everything possible to improve it, both in regard to color and size. We have also done our best to eliminate the Small Flowering Doubles.

We are now, therefore, able to offer such seeds which not only grow 100% double-flowering plants, but which also produce flowers of immense size. These flowers show a wonderful assortment of beautiful colors, such as Carmine, Brilliant Rose, Velvety Purple, Violet, Purple, White, Creamy Yellow, and innumerable intermediate as well as variegated colors. These flowers, which are exquisitely fringed and duplexed as shown in the picture, very often measure as much as 5 inches across.

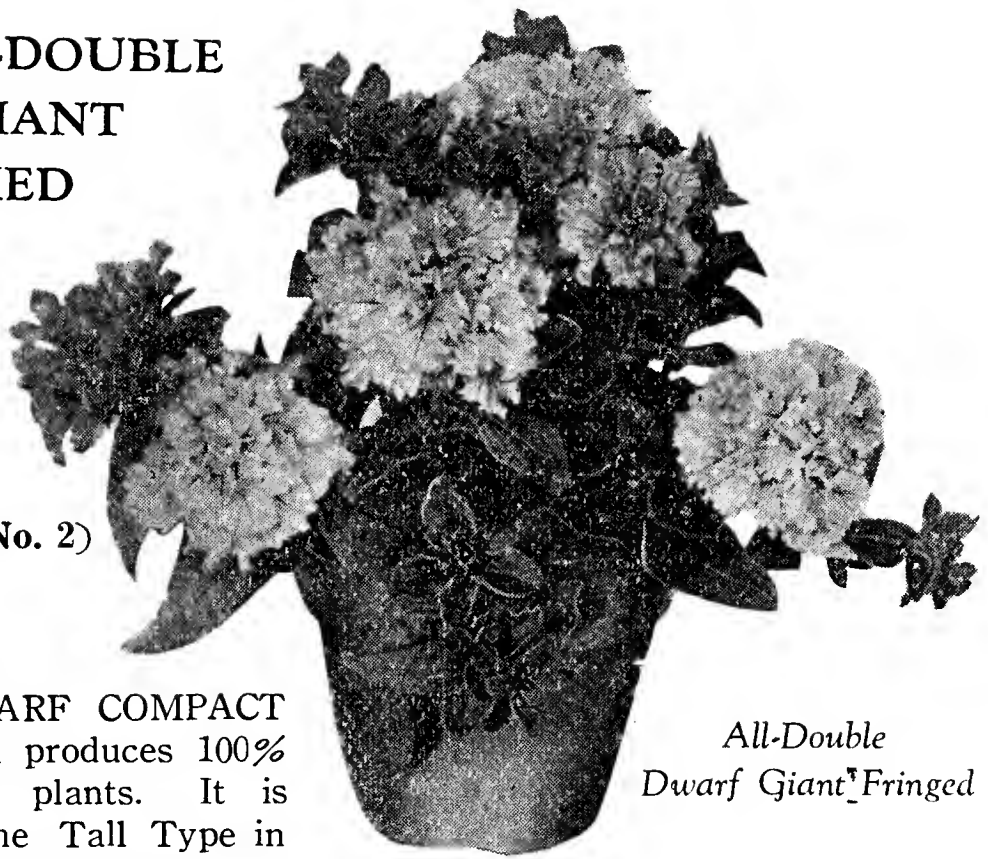

Prices ; \$1.00 pkt, \$8.00 $\frac{1}{32}$ oz. \$14.00 $\frac{1}{16}$ oz.

*Any other varieties not listed in this list, prices on request.
Special prices on larger quantities.*

**PETUNIA ALL-DOUBLE
DWARF GIANT
FRINGED MIXED
COLORS**

“Victorious”

(Sakata's Novelty No. 2)

*All-Double
Dwarf Giant-Fringed*

The ONLY DWARF COMPACT PETUNIA which produces 100% Double-flowered plants. It is identical with the Tall Type in regard to its 100% double flowering character, while its Dwarf Compact Form enhances its popularity. These plants are remarkably uniform in habit, producing a wonderful assortment of brilliant and fancy colorings. They produce very large, fully doubled flowers, and being extremely floriferous, have an appearance similar to the Double-flowering Indian Azalea. As they seldom grow more than ten inches in height, they are very suitable for pots, as may be seen from the picture; they are equally suitable for borders.

Prices ; \$1.00 pkt, \$9.00 $\frac{1}{32}$ oz, \$16.00 $\frac{1}{16}$ oz.

PETUNIA ALL-DOUBLE DWARF GIANT FRINGED ROSY-CARMINE

“100% Double-fl. strain” (Sakata's Novelty No. 3)

Previously, we offered this wonderful colored Petunia seed in 50% double-flowering strain but now we succeeded in producing All-Double or 100% Double-flowering seed in the same fascinating color.

The flowers which are the most beautiful rosy-carmine, are large, full double with good fringiness, oftentimes accompanying delightful fragrance. They are, almost without any exception, make dwarf compact growth and are extremely floriferous.

It is our belief that this is not only one of our masterpieces but one of the most outstanding novelties of recent year. Few Petunias are more suitable for pot or border than this pretty strain.

Prices ; \$1.00 pkt, \$10.00 $\frac{1}{32}$ oz, \$18.00 $\frac{1}{16}$ oz.

PETUNIA ALL-DOUBLE, MAMMOTH, PEONY-FLOWERED MIXED COLORS

“100% Double-fl. strain” (Sakata's Novelty No. 4)

Another 100% Double-flowering strain, producing the most gigantic flowers, which GENERALLY EXCEED FIVE INCHES ACROSS. The flower is not so much fringed as in the other types, but it is beautifully waved and ruffled, giving an appearance similar to that of the Double Peony. During the past season we made every effort to lessen the

percentage of small flowering doubles; as a result of those efforts we are now able to supply seed which will produce more than 70% Mammoth Doubles, as against less than 30% small doubles. This type covers various colors such as velvety purple-violet, shiny purple-red, blotched and other intermediate shades.

Prices ; \$1.00 pkt, \$9.00 $\frac{1}{32}$ oz, \$16.00 $\frac{1}{16}$ oz.

PETUNIA GIANTS OF CALIFORNIA, SELECTED STRAIN MIXED COLORS

In this popular variety, if you are looking for still bigger flowers or better colors or the combination of these two important qualifications, you will be highly satisfied by planting our seeds. From our breed, you will find the largest of flower in beautifully ruffled form combined with the widest range of many striking colors such as scarlet, copper-red, white striped, red, pink as well as many other intermediate shades. Our continuous effort to eliminate small flowering plants is also well rewarded and you will find, on trial, our seeds will produce remarkably few small flowering plants than any other strains.

Prices ; 50 ¢ pkt, \$1.00 $\frac{1}{32}$ oz, \$1.80 $\frac{1}{16}$ oz.

PETUNIA DWARF GIANTS OF CALIFORNIA, SAKATA'S SELECTED STRAIN MIXED COLORS

Size of flower, richness of color, even dwarf compact growth are the remarkable characteristic of our strain. The flower is unusually large and colorful, containing almost same assortment of colors as described in the tall type. As in the Tall Type, the small-flowering plants are very unusually scarce. In our Trial Ground, we found our strain is to be quite outstanding.

Prices ; 50 ¢ pkt, \$1.00 $\frac{1}{32}$ oz, \$1.80 $\frac{1}{16}$ oz.

PETUNIA GRANDIFLORA FRINGED TALL MIXED COLORS

Extra choice quality in size, in color as well as in fringiness. Probably no better strain obtainable in the market.

Prices ; 50 ¢ pkt, \$1.00 $\frac{1}{32}$ oz, \$1.80 $\frac{1}{16}$ oz,

PETUNIA GRANDIFLORA FRINGED DWARF MIXED COLORS

Also extra choice quality in size, in color as well as in fringiness. We believe this is one of the best Dwarf Petunias in existence.

Prices ; 50 ¢ pkt, \$1.20 $\frac{1}{32}$ oz, \$2.20 $\frac{1}{16}$ oz.

PETUNIA GRANDIFLORA EXTRA LARGE PLAIN-EDGED MIXED COLORS

This is one of the largest of all Single Petunias. The petals are not fringed but only slightly waved. SAKATA'S seeds will be very true to the color and the size, one of the best that is obtainable.

Prices ; 50 ¢ pkt, \$1.20 $\frac{1}{32}$ oz, \$2.20 $\frac{1}{16}$ oz.

PETUNIA PENDULA or BALCONY MIXED COLORS

As the result of our close breeding, SAKATA'S strain will be one of the very best in the market. Our prices are very reasonable for the quality.

Prices ; 50 ¢ pkt, \$1.20 $\frac{1}{4}$ oz, \$2.20 $\frac{1}{2}$ oz, \$4.00 oz.

*Any other varieties not listed in this list, prices on request.
Special prices on larger quantities.*

PETUNIA HOWARD'S STAR, SAKATA'S RESELECTED STRAIN

Without question, the best strain in the market. Almost every flower has characteristic star on deep velvety purple ground. The flower is also decidedly larger than ordinary strain.

Prices ; 50 ¢ pkt, \$1.00 $\frac{1}{4}$ oz, \$1.50 $\frac{1}{2}$ oz. \$2.70 oz.

PETUNIA HYBRIDA NANA COMPACTA COCKATOO

Reselected strain which shows characteristic beautiful color almost without exception. We believe our strain is just as good as any best strain in the market. In our Trial Ground, out of over 200 plants, we found no rogue.

Prices ; 50 ¢ pkt, \$1.20 $\frac{1}{4}$ oz, \$1.70 $\frac{1}{2}$ oz. \$3.00 oz.

*Pansy Waved
Roggli's Giant*

NOVELTY PANSY

PANSY WAVED ROGGLI'S GIANT MIXED COLORS

Almost identical to the best Roggli's Giant strain both in the size of flower as well as in color which is very brilliant. This strain has strongly waved petals instead of plain petals as in the original Roggli's Giant Pansy. They are extremely beautiful.

Prices ; 50 ¢ pkt, \$1.40 $\frac{1}{8}$ oz, \$2.40 $\frac{1}{4}$ oz.

*Any other varieties not listed in this list, prices on request.
Special prices on larger quantities.*
